Comments:

@@@I think that the mailing of insolicited "Convenience Checks" and Credit card application forms, especially those with the name and address of the recipient pre printed on the application, should be discontinued. The current prevalance of "Identity Theft" crimes highlights the dangers inherrent in these solicitations.
Adverisements pertaining to the avilabilty of a vendors credit / debit card and its conditions or to the availabilty of "Conveniece Checks" should suffice.
